distributor of **DURAM MASK**
PERSONAL ESCAPE MASK 

MASKITO Compact Escape Mask

MODEL: DM-20C-300-YE/BL

A personal emergency device for short-term respiratory protection during escape from situations involving hazardous and toxic air. For private homeowners, hotels, high-rises, hospitals, ships and aircrafts.

FEATURES

- > Pocket-size
- > Dons within seconds. No adjustment straps
- > One size fits all
- > Strong, fire-resistant, elastic rubber hood, protects the entire head and seals comfortably at the neck
- > High-efficiency, electrostatic particle filter, with extremely low pressure-drop to allow easy breathing
- > Layers of activated charcoal with special impregnation to absorb toxic gases
- > Large visor, made of flame-retardant transparent film, allows a wide field of view
- > Training model available
- > Available in two colors: yellow and black

TECHNICAL DATA

Hood:

- > Special Polychloroprene Latex compound
- > Elongation at break: > 700%
- > Tensile strength: > 150 kg/cm²
- > Temperature resistant: 200°C
- > Fire-resistant to the requirements of NFPA 701

Visor:

ETFE film - a copolymer of Polytetrafluorethylene with Ethylene monomer

- > Tensile strength: 50 N/mm²
- > Elongation at break: 450%
- > Tear resistance: 50 N/mm
- > Temperature resistance: 150°C
- > Flame retardant: UL 94 V-O
- > Light transmission: > 95%

Filter Assembly:

Multi-layer filter includes the following:

- > External polyester screen, fire resistant to the requirements of NFPA 701
- > Electrostatic particle filter
- > A layer of activated charcoal cloth with impregnation against acid gases
- > Soft inner pad of non-woven material

Filter Performance:

Test gas	Challenge Concentration (ppm)	Flow Rate (l/min)	Breakthrough Time
Hydrogen Chloride (HCl)	1,000	20	60 min at 5 ppm
Hydrogen Cyanide (HCN)	400	20	40 min at 1 ppm
Nitrogen Dioxide (NO ₂)	200	20	25 min at 10 ppm
Sulfur Dioxide (SO ₂)	150	20	25 min at 5 ppm

Particle Penetration:

- > Meets EN 143 P2
- > Pressure drop at 20 lit/min: 0.06 mbar

General:

- > Approximate (package) dimensions: 19x15x2 cm
- > Approximate (package) weight: 150 gr

Storage and Carrying:

- > The mask is stored in a personal carrying pouch
- > Optional wall mounted countainer available for storing up to 10 masks
- > Larger portable pouches/containers
